8. **Other skills:** Programme and project management; monitoring and evaluation; impact assessment; designing and leading training programmes; facilitation of participatory learning processes; support of farmer group formation. Computer skills.
9. **Present position:** Independent consultant
10. **Years within the firm:** 11 years
11. **Key qualifications:** Ms. Laureense is a Senior Expert in sustainable agricultural production and extension methodologies. She has over 35 years' experience with the development, implementation, monitoring and evaluation of farmer training, rural development and Integrated Pest Management (IPM) programmes in Asia and Africa. As long- and short- term consultant she assisted several bilateral and multilateral donors in the set-up, management, evaluation and impact assessment as well as with further project development of agricultural production related rural development programmes in South- and Eastern Africa, Northern Africa and South-East Asia.

Ms. Laureense successfully assisted national counterparts to apply and further develop participatory extension methods and assisted in the capacity building of the local staff and farmers. She worked intensively on the development and empowerment of farmer organisations through FFS. She has hands-on experience with gender mainstreaming. She developed and applies participatory monitoring and evaluation methodologies capturing the essential elements, technical, social and economic, of the extension approaches.

During her assignments in Tanzania and South-East Asia she was involved in supporting farmer groups interested in production and marketing of organically produced rice and other crops.
